DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-9, drawn to a method for correcting back gate in a power of FET, classified in class 438, subclass 10.

Group II. Claims 10-21, drawn to an apparatus for correcting back gate in a power of FET, classified in class 257, subclass 284.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as an apparatus for the correcting back gate of the power in FET and method made. The inventions are distinct if either or both of the following can be shown: (1) that an apparatus for correcting back gate in a power of FET as claimed can be used to make other and materially different method or (2) that the method as claimed can be made by another and materially different with an apparatus (MPEP § 806.05(f)). In the instant case (2) the method for correcting back gate in a power of FET caused by drain voltage changing rapidly from a higher voltage level to a lower voltage level as claimed can be made by another different with an apparatus for correcting back gate in a power of FET caused by drain voltage changing rapidly from a higher voltage level to a lower voltage level..

Art Unit : 2824

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Michael J. Ure on September 13, 2002 to discuss the restriction issue of this application, but was unable to reach.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventor ship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventor ship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Conclusion

6. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Pho M. Luu whose telephone number is (703) 306-5943. The examiner can normally be reached on Monday through Friday from 9:00am to 5:30pm.
